A Month of Learning, Leadership and Loyola Spirit

"Education comes alive when learning moves beyond the classroom and becomes an experience that shapes the mind, strengthens character, and inspires the heart."

October was a month of vibrant activity, meaningful experiences, and joyful celebrations at Loyola School, Sreekariyam. The campus came alive with the energy of learning, the excitement of sports, the creativity of young minds, and the spirit of togetherness that defines the Loyola family. Every programme offered an opportunity to discover new talents, build relationships, develop leadership, and grow in responsibility.

The month began with LOBA Back to School, bringing Old Loyolites back to the familiar corridors of their alma mater. The occasion was a

beautiful celebration of friendship, memories, and enduring bonds. It reminded us that while students may leave the school gates, the values and experiences of Loyola remain part of their lives forever.

At Loyola, education extends far beyond textbooks and classroom walls. The state-level inauguration of Project-Based Learning by ASVA marked an important step towards making learning more experiential, collaborative, and relevant to real-life situations. Such initiatives encourage students to think critically, work together, explore possibilities, and transform ideas into action.

Educational tours and field trips added another dimension to this learning journey. Students from Classes I, II, III, IV, V, VII, VIII, IX, X, and XI had opportunities to explore the world beyond their classrooms. These experiences helped them observe, question, discover, and connect their academic knowledge with the world around them.

"The world is a classroom, curiosity is the teacher, and every experience is a lesson waiting to be discovered."

Whether through a field trip or an educational tour, every journey offered a chance to broaden horizons, deepen understanding, and create memories that will last long after the journey ended.

The inauguration of the new sports turf was another significant milestone in October. More than a sporting facility, it represents our commitment to the holistic development of every student. Sports nurture discipline, perseverance, teamwork, resilience, and respect for others—qualities that are essential both on the playing field and in life.

The LOBA–Loyola Cricket Tournament brought together the excitement of the game and the warmth of the Loyola community. The Parents'

Football League (PFL) Grand Finale was another memorable celebration of teamwork and fellowship. The participation and enthusiasm surrounding these events reflected how sport can unite generations and strengthen the bonds between school, parents, and alumni.

"True victory is not measured only by the score, but by the character we build, the teammates we support, and the lessons we carry forward."

At Loyola, we celebrate not only achievement but also effort, fair play, and the courage to give one's best.

October was equally special for our youngest learners. KG L'Talentum provided a joyful platform for children to express themselves, showcase their abilities, and gain confidence. Every performance, smile, and moment of participation reminded us that talent blossoms when children are encouraged, appreciated, and given opportunities to shine.

The Painting Day added colour and imagination to campus life. Through their artistic expressions, students explored ideas, communicated emotions, and discovered the joy of creativity. Such experiences nurture imagination and remind us that every child has a unique gift waiting to be developed.

"Every child carries a spark of brilliance; our task is to create the space in which it can shine."

From the enthusiasm of the youngest children to the aspirations of senior students, October reflected the richness of school life at Loyola. The educational tours, creative activities, sporting events, and community programmes offered students opportunities to learn, lead, collaborate, and grow.

These activities are not merely items on a school calendar. They are meaningful opportunities to develop confidence, responsibility, empathy, and a sense of belonging. They help students discover that excellence is not simply about achieving more; it is about becoming better human beings.

The special assembly held on the occasion of St Rodriguez's Day for the non-teaching staff was a meaningful reminder of the people whose dedicated service sustains the life of our institution. A school flourishes through the collective commitment of teachers, administrative personnel, support staff, parents, alumni, and students.

Every individual contributes to the mission of Loyola in a distinctive way. Recognising their service reinforces our belief that dignity, gratitude, and mutual respect are essential elements of a truly caring educational community.

October's activities beautifully echoed Loyola's educational vision and the theme of the academic year, Excellence through Responsibility. Whether on the sports turf, during an educational tour, through a painting, or in a community celebration, students were encouraged to discover their potential and use their gifts meaningfully.

Rooted in the Jesuit tradition, Loyola seeks to form young people who are academically competent, compassionate, conscientious, and committed to the greater good. The spirit of MAGIS invites us to strive for more—not merely in achievement, but in generosity, service, and personal growth.

As St Ignatius of Loyola reminds us through his spiritual tradition, we are called to seek God in all things and to offer our best for the greater glory of God.

October may have passed, but the lessons it offered will continue to shape our journey. The friendships strengthened, talents discovered, horizons widened, and values practised during the month will remain part of our shared story.

As we turn the pages of LENS and look ahead to another month of possibilities, let us carry forward the enthusiasm of October with renewed purpose and commitment.

At Loyola, every experience is an opportunity to learn, every challenge is an invitation to grow, and every day is a chance to make a difference.

Loyola First. Excellence through Responsibility. Ad Majorem Dei Gloriam — For the Greater Glory of God.

Fr. Dr. Salvin Augustine SJ
Principal

From Principal's Desk

We are thrilled to present the October 2026 edition of LENS. This month has been a whirlwind of spectacular events in Loyola School, from enriching educational tours and field visits and Kids cultural fests to the state-level inauguration of our innovative project-based experiential learning initiative. The campus also buzzed with sporting fervour during our grand-scale Parents Football and Cricket tournaments. It has been a joy to witness our students, parents, and alumni coming together to celebrate their togetherness, share meaningful experiences, and engage in meaningful interactions in the campus. We extend our warmest congratulations and appreciation to everyone who helped organize these wonderful programmes and brought joy to the campus.

Fr. Ramlat Thomas SJ
Principal, Loyola School CBSE

Pioneer Leap in Pedagogy: Project-Based Learning Officially Launched at Loyola School

Marking a historic milestone in the school education landscape of Keralam, the official launch of the Project-Based Learning (PBL) initiative was celebrated with grand academic fervour at the prestigious Loyola School campus on 5 October 2026. The event brought together space scientists, veteran academicians, policy leaders, and school administrators from across the state to witness a paradigm shift in classroom dynamics designed to foster innovation, skill development, and critical thinking among students.

The event commenced with a melodious prayer song rendered by the students of Loyola School, setting a serene atmosphere for the day's proceedings. Following the invocation, Mr. Mathew John, the founder Director of the Advanced Schools Vision Alliance (ASVA), delivered the welcome address. Welcoming the dignitaries and the august gathering, Mr. John introduced the vital importance of PBL in modern education, outlining how the alliance aims to bridge the gap between abstract academic concepts and real-world execution.

Presiding over the function, Fr. Dr. Salvin Augustine, SJ, Director and Principal of Loyola Schools, delivered the presidential address, drawing

attention to the National Education Policy (NEP) 2020 and its focus on experiential learning. He noted that education must transcend textbooks to create empathetic, highly skilled, and adaptive human beings.

The summit reached its pinnacle with the official launch declaration by the Chief Guest, renowned space scientist and Padma Vibhushan Dr G. Madhavan Nair (Former Chairman, ISRO). He also recalled how his venturing out, as early as in 1965, into activity-based learning helped him develop his interest in space science, aerospace engineering, avionics and related technologies. He encouraged students to engage in skill-based learning. This was followed by the traditional lighting of the lamp by all the dignitaries on stage, symbolising the eradication of conventional rote learning and the dawn of enlightened, inquiry-based education.

Prof. N.V. Chalapathi Rao, the Director of the National Centre for Earth Science Studies (NCESS) in Thiruvananthapuram, was emphatic about the indelible nature of education through activity-oriented learning and promised support in the venture.

Detailing the architecture of the new curriculum, Mr. Joy Varghese, the Registrar of Loyola Schools, presented a fascinating evolutionary mapping of teaching methods. Tracing the transition of pedagogy from the rigid frameworks of the 1980s to the tech-driven, fluid requirements of 2026, Mr. Varghese strongly advocated for an immediate departure from the traditional lecture method. He stressed that contemporary classrooms must adapt to participatory, collaborative, and activity-based learning structures to remain relevant.

Expressing wholehearted support, Dr. R. Ratheesh, Director General of C-MET under the Ministry of Electronics, GOI, Dr. Tarun Kumar Pant, Director, Space Physics Laboratory and Dr. G. Byju, Director, CTCRI, shared their video messages.

A major highlight of the ceremony was the focus on teacher empowerment and professional upskilling. Ms. Roshy Thomas shared her first-hand experience regarding the intensive KPMG training undergone by the faculty to facilitate the PBL framework. Following this, a KPMG

Representative officially handed over the training completion certificates to the school's teachers, validating their readiness to spearhead this interactive curriculum.

Solidifying industry-academia integration, a formal ceremony took place for the handing over of a Memorandum of Understanding (MoU) with Finprov, exchanged between Mr Mathew John (ASVA) and Ms. Veena Vijayan, CEO of Finprov. This alliance is set to bring vocational depth and real-world financial literacy projects directly into the school curriculum.

In a symbolic gesture representing the execution of the project, the dignitaries on stage handed over the newly designed PBL Forms to student representatives spanning classes VI to XII, marking the official integration of the module into their academic calendar.

Special guests who graced the occasion included Dr. Ciza Thomas, Vice Chancellor of Dr. A.P.J. Abdul Kalam Technical University and Sree Sankaracharya University of Sanskrit. Addressing the gathering, Dr. Thomas explained the profound significance of activity-based learning in schools and how it plays an irreplaceable role in sustaining long-term skill development among youth. Fr. Ramlat Thomas SJ, Principal of Loyola CBSE School, alongside principals from various parts of Kerala, the Chairman and Secretary of IEI (Institution of Engineers, India), Prof. Dr. Jayakumar, Chairman, ASVA, invited guests, faculty, and students also participated in the landmark event.

The event drew to a successful close with a gracious Vote of Thanks delivered by Dr. Catherine Thomas, who thanked the guests, organisers, and patrons for turning this vision into a reality. The memorable assembly concluded with the rendering of the National Anthem, echoing a collective pride and a shared vision for the future of education in the state.

We are deeply saddened to announce the sudden passing of Dr. Ganesh Chitranjan (1990 Batch, ICSE) on 2nd October in Trivandrum. He will be remembered as a true gentleman, a compassionate soul, and a loyal friend. His warmth and wonderful smile touched many lives. A practising dentist, he ran his own clinic in Trivandrum and was admired for his dedication to his profession and patients. Dr. Ganesh is survived by his spouse, Dr. Dhanya Ganesh, and their two daughters, Radha G. Nair and Nadhana G. Nair. Our heartfelt condolences go out to his family.

May his soul rest in peace.

Blessing Ceremony of the New Sports Turf

The blessing ceremony of the new Sports Turf at Loyola School was held at 9 a.m. on 6th October 2026. The ceremony marked a significant addition to the school's sports facilities, providing students with a new space to develop their sporting skills and nurture team spirit.

The turf was blessed by Fr. Jose Thaiparambil, SJ, Bursar of Loyola School, in the presence of Fr. Dr. Salvin Augustine, SJ and Fr Ramlat Thomas, SJ. The ceremony began on a prayerful note with a song led by Deepu Sir and his team, invoking God's blessings on the new facility and all those who would use it.

Following the blessing ceremony, a friendly football match was organised between the school's four houses. The match witnessed enthusiastic participation, healthy competition, and fine sportsmanship among the players.

The inauguration of the new Sports Turf was a memorable occasion for the Loyola School community. The facility is expected to encourage greater participation in sports and provide students with more opportunities to enhance their physical fitness, teamwork, and competitive spirit.

Ms. Sneha Joe Edwin

Loyolites Unite at LOBA Sports League

On 2nd October 2026, Loyolites across generations returned to campus for the 9th edition of the LOBA Sports League (LSL), part of this year's Back to School (B2S) event. The pioneers, the giants, the jetsetters, and the spacepersons met at our newly refurbished main school ground to battle for top honours across nine sports: cricket, football, basketball, table tennis, pickleball, badminton, swimming, athletics, and tug-of-war.

Day 1 opened with cricket, where AP faced JJ, followed by GG against SS. With game rules similar to box cricket, a convincing win from AP and persistent effort from GG saw them through to the finals the next day. Athletics featured two sub-events – 100m sprint and shuttle relay. JJ took a clean sweep of the events and gained an early lead in overall standings after their 3rd place finish in cricket as well. The battle then shifted indoors for table tennis. AP took the honours against JJ in straight sets. After lunch, basketball in the indoor stadium saw GG and SS advance to the finals. The most popular sport in the world made its entrance late, but there was no dearth of excitement among players and onlookers alike. A thrilling opening match between JJ and AP saw JJ win the toss as regulation time ended 2 - 2 and the game still being undecided after each team took a

staggering 14 penalties! GG won a hard-fought match against SS to claim a 1 - 0 victory. The event then shifted outside the campus for badminton. SS won the finals against JJ, the latter maintaining their lead going into Day 2.

Day 2 started with LOBA's cricket match. PTA batted first, but regular loss of wickets restricted them to 62 all out within the stipulated 15 overs. LOBA achieved the target of 63 with the loss of 3 wickets. The event also witnessed the launch of LOBA's first official jersey sponsored by Calculsz (marketing firm owned by Pradeep Suthan of 1985 batch) and Bechoos (home renovation and maintenance firm owned by Sooraj Sumethan of 1989 batch). The battle for the coveted Govind Krishna Memorial LSL shield resumed with the cricket final. A frantic game saw AP post a competitive score of 65 in 8 overs, but a good start and composure from GG helped them win the game as they managed to score the required final 3 runs off the last ball.

Pickleball was next, and the games were played at Spinz - a joint venture by Loyolites of the 2008 batch. JJ came out on top against AP as the march towards their first LSL title seemed closer than ever. The Loyola Aquatics Centre staged the swimming event. GG romped to victory in both sub-events – 50m freestyle and 2 x 25m relay. After lunch break, football finals were held. AP claimed 3rd place against SS while JJ won the finals 1 - 0 against GG, taking an unassailable lead in the LSL championship standings. The quintessential event of B2S, Tug-of-war, saw AP win as the 'war of the houses' was winding down to a close. The feature event of any B2S, as mirrored from school days, is the basketball final. SS and GG gave a fitting finale to close proceedings, with SS coming out on top with the score 50 - 27.

With the dust settled, captains and members of every house waited in anticipation to get their hands on trophies and medals as well as to know

the final LSL standings. Fr. Dr. Salvin Augustine, SJ (Principal & Director, Loyola School), Fr. Jose Thyparambil (Bursar, Loyola School), Mr. Prem Krishnan (Treasurer, LOBA), Mr. Jacob Mathan and Mr. Ranjan Kanthy (Executive members, LOBA) were present to oversee the finale and distribute the awards. After the trophies and medals were handed out, the audience waited with bated breath to know who would be adjudged the overall champions. For their consistency and dominance since Day 1, JJ were crowned winners of LSL! The LSL shield was raised by the first female captain of B2S and JJ house captain, Johanna Esther (batch of 2023). The assembly ended with cheers from the winning teams posing for pictures and selfies, bringing curtains down on another memorable Back to School '26. Sincere thanks are extended to our sponsors – OrthoFX, batches of 1983 and 2012, Spinz Pickleball – for their generous support and patronage, which was instrumental in making this event possible.

by Team YOLO, LOBA

LOBA

L'Talentum Kindergarten: Celebrating Talent, Creativity, and Holistic Growth

L'Talentum Kindergarten was inaugurated on October 9 in an atmosphere filled with excitement, enthusiasm, and the promise of discovering young talents. The occasion marked a meaningful step towards nurturing the creativity, confidence, and diverse abilities of our little learners, reaffirming the importance of a well-rounded kindergarten education.

The inaugural ceremony was graced by our Principal Fr. Ramlat Thomas, SJ, who highlighted the indispensable role of extracurricular activities in a child's holistic development. He emphasised that education extends far beyond textbooks and classrooms, providing children with opportunities to explore their interests, develop social skills and discover their unique potential. He also sensitised parents to the growing dependence on technology, encouraging them to be mindful of its influence on young minds and to ensure a healthy balance between screen time and meaningful real-world experiences.

The chief guest, Mr. Sarath Das, cine actor and dubbing artist, brought a special spark to the occasion through his warm and engaging interaction with the children. With his remarkable voice modulation and artistic

flair, he delighted the little ones by teaching them to mimic the sounds of birds and animals. The children responded with curiosity and enthusiasm, transforming the interaction into a joyful and memorable learning experience. Mr. Sarath Das also shared valuable insights with parents on the importance of parenting, underscoring the role of parental guidance, understanding, and encouragement in shaping a child's personality and future.

The inaugural ceremony was followed by the UKG fancy dress competition, which proved to be a spectacular celebration of imagination and originality. The stage came alive with an astonishing array of costumes and concepts. The audience was treated to a fascinating display of young minds at work, with little participants transforming themselves into a fire engine, a jellyfish, a tribal from Nagaland, a lifeguard, a peacock, a rainbow and even a DNA molecule! Each presentation was worthy of admiration, reflecting not only the children's imagination but also the thoughtful efforts of their parents and teachers.

The inauguration and the vibrant fancy dress competition together set the tone for a year filled with opportunities to discover, nurture, and showcase the talents of every child. May L'Talentum continue to inspire our little learners to dream boldly, explore fearlessly and shine in their own unique ways.

From Snowstorm to Wonderla: Grade 9 Excursion

The class IX school excursion was an exciting, memorable trip filled with fun that helped us strengthen our friendships. Along with our teachers and uncles, we had an unforgettable experience. Our trip was planned to Athirapilly Waterfalls, Snowstorm Snowpark and Wonderla in Kochi for two days. We were asked to report to the school by 3 a.m. on 13th October 2026, as the buses were scheduled to leave at 3:30 a.m. After the teachers took attendance, we boarded the bus. Although we were delayed by about ten minutes, we finally set off for Snowstorm Park at around 3:40 a.m. We stopped for our breakfast at about 8:30 am at Saugandhika Residency near Haripad and had a wonderful breakfast of appam and chicken curry. Then we again started our journey to Snowstorm and reached there by about 12:30 pm. We had lunch, which was biriyani, before entering the snow park. Inside, the temperature was about –12 °C, and we immediately began a massive snowball fight. We spent about an hour there and then headed straight to Athirapilly waterfalls, located just a 15-minute drive from Snowstorm Park. The trek to the waterfalls was challenging, but the breathtaking view made the climb worthwhile.

We returned to our rooms at around 7 p.m., and after freshening up, we went to Maqla Deli for dinner. Interestingly, this was the very hotel where the film Bethlehem Kudumba Unit was filmed. Later, we retired to our rooms, and after a good night's sleep, we were ready for the final destination of our tour – Wonderla. On the way to Wonderla, we had breakfast at Maqla Deli. We reached Wonderla at around 10:30 a.m. After receiving a few instructions, we were allowed to explore the place and enjoy the different rides. By 1:00 p.m., we gathered at the restaurant for a buffet lunch, after which we headed to the water rides. We were asked to return to the pavilion by 6:00 p.m. After reporting back, the teachers took attendance, and we had a group photograph to capture the memory.

Finally, we boarded the bus, tired but happy after a long, fun-filled day at Wonderla.

On the return journey to Loyola, we watched films on the bus. Around 10 p.m., we stopped at Saugandhika Residency for a delicious buffet dinner. Soon after, everyone fell asleep on the bus, exhausted from the day's adventures. When the trip finally came to an end, we felt sad that it was over so quickly, yet our hearts were filled with unforgettable memories to cherish forever.

A Day of Fun and Learning

The students and class teachers of Class II enjoyed a memorable tour to the Zoo on 16 October 2026. The day was filled with excitement, exploration, and joyful moments. The children eagerly observed various animals and birds, learning about their unique characteristics and habitats. The visit helped them develop curiosity, appreciate wildlife, and understand the importance of protecting nature.

Accompanied by their class teachers, the young learners enjoyed exploring the zoo and discovering new things beyond the classroom. The outing also encouraged teamwork, cooperation, and friendship among the children. A special highlight of the day was lunch at South Park Hotel, where the children relished delicious biryani followed by ice cream. The meal added an extra touch of happiness to their exciting day. The tour provided a wonderful balance of education and recreation, allowing the children to learn through real-life experiences while enjoying quality time with their classmates and teachers.

Overall, the tour was a happy and enriching experience filled with learning, laughter, and togetherness. It created beautiful memories that the children and teachers will cherish for a long time.

Hands-On Learning: Loyola Students Attend STEM Workshop

On 17 October, 2026, I had the opportunity to attend a free STEM (Science, Technology, Engineering, and Mathematics) workshop at Mar Baselios College of Engineering and Technology, Thiruvananthapuram. A total of 22 students from Loyola School participated in this programme, which introduced us to various fields of science and engineering through laboratory visits, demonstrations, and interactive activities.

The programme began with an inaugural session by Professor Luis Kun, who highlighted how science and technology can help tackle real-life challenges, especially during natural disasters. We then explored various laboratories and engineering societies across the campus. The Physics and Chemistry laboratories introduced us to practical experiments, while the technical societies demonstrated electronic circuits, microchips, touch sensors, and solar panels. One of the most exciting sessions was with the Robotics and Automation Society, where we controlled a robot and watched a computer recognise hand gestures. We also participated in fun activities involving Morse code, binary code, and memory games.

A particularly interesting activity focused on disaster management, where we learned how drones can help locate stranded people and assist rescue teams. Our laboratory visits also introduced us to electrical machines, heat engines, transportation engineering and modern manufacturing techniques, including 3D printing. Although we could not visit every laboratory due to time constraints, the workshop was an enlightening experience. My favourite part was seeing concepts that we usually learn from textbooks being applied in real life. The interactive demonstrations made learning enjoyable and sparked my curiosity about science and engineering.

Overall, the workshop was a memorable and informative experience that broadened our understanding of STEM and showed us how practical learning can make education more meaningful.

Suhani Nambiar (XI A1)

LOBA and Loyola Reunite for a Memorable Cricket Encounter

The familiar grounds of Loyola School came alive with cricketing enthusiasm on October 16, 2026, as LOBA Cricket Club took on Loyola School in a spirited tennis-ball cricket encounter. Bringing together alumni and students, the match offered an engaging blend of competitive cricket, camaraderie and shared school memories.

Winning the toss, Loyola School elected to field first. Their bowlers made an encouraging start, reducing LOBA to 19/3. However, Varun Deva soon shifted the momentum with a spectacular batting display, scoring 63 runs off just 33 deliveries, including three boundaries and five towering sixes. Sreejith provided valuable support with an explosive cameo of 19 runs from just eight deliveries, including two sixes, helping LOBA post 98/7 in their allotted 10 overs. Despite the aggressive batting, Loyola captain Gautham Prajoth stood out with an impressive bowling performance, claiming three wickets for just 12 runs in two overs.

Chasing a target of 99, Loyola School encountered a disciplined LOBA bowling attack. Venkitesh delivered an exceptional spell, claiming three wickets for just three runs in two overs, including a maiden. Varun Deva continued his fine all-round performance, picking up two wickets while conceding just three runs. Murali also made a significant contribution, claiming two wickets for only two runs in five deliveries. Sreejith, Aravind, and Rohith chipped in with a wicket each, maintaining the pressure throughout the innings. For Loyola, Devarsh top-scored with 10 runs, while Abhinav A Nair contributed eight. The students were eventually bowled out for 36 in 7.5 overs, with LOBA finishing 62 runs ahead. Varun Deva was deservedly adjudged Player of the Match and Best Batter for his outstanding performance. Loyola captain Gautham Prajoth earned the Best Bowler and Fighter of the Match honours, recognising his spirited performance.

Beyond the statistics, the occasion reflected the enduring relationship between Loyola School and its alumni. The match brought together different generations through their shared passion for cricket, creating an atmosphere of friendly competition, mutual respect and sporting enthusiasm.

For the alumni, returning to the school ground offered an opportunity to reconnect with their roots and relive cherished memories. For the students, the encounter provided valuable exposure to experienced players and an opportunity to showcase their emerging cricketing talent.

As the match drew to a close, the occasion served as a reminder that sport has a unique ability to bridge generations and strengthen lasting connections.

More than a contest between alumni and students, the match was a celebration of the Loyola spirit - a legacy of sportsmanship, friendship and togetherness that continues to unite generations.

Vimal M (2005 Batch)

In Loving Memory of our Dear Rohith

Some bonds are built to stand the test of time, and ours began back in 2003. For more than two decades of shared laughter, quiet support, and unforgettable moments, Rohith was far more than a friend. He was a truly good human being and a constant, reassuring presence in many of our lives. His sudden and untimely departure has left us stunned and deeply heartbroken. The thought of losing him so soon is one we are still struggling to process, and the void he leaves behind feels impossibly empty.

If you knew him, you knew his rare and beautiful gift: he was always

there. He had an incredible way of remembering the things that mattered, checking in when we least expected it, and standing by our side whenever we needed him most. Yet, alongside that quiet reliability was a spirit that could catch us all by surprise. We still remember that unforgettable Sports Day when he took to the track, sprinted past the finish line to win the 100m race, and left us all cheering in absolute awe.

Though he was taken from us far too soon, the warmth, loyalty, and joy he brought into our lives will remain etched in our hearts forever. We will carry his memory with us, honouring the gentle, selfless soul he was. May his soul rest in eternal peace. He will be missed beyond words.

Batch of 2014

FIELD TRIP TO FATHIMA PALLIATIVE CARE CENTRE, THUMBA

On October 12, 2026, Class VII went on a field trip to the Fatima Palliative Care Centre in Thumba. Our journey there was noisy and full of excitement despite the bumpy road, but our teachers signalled us to maintain absolute silence as soon as we arrived.

Upon entering, we noticed the institution was laid out across three distinct blocks: a pharmacy, doctors' quarters, and separate residential quarters for nurses and patients. The property was surrounded by two beautiful

gardens, one of which featured a prominent, traditional open well at its centre. Our teachers guided us into a newly renovated residential wing to observe the facilities provided for the residents. This three-floor building accommodated approximately twenty-five to thirty-five rooms, an active nursing station, a clean kitchen, and attached restrooms.

Walking along the corridors, we saw many frail, elderly individuals resting under the gentle, attentive supervision of the nursing staff. Later, we all assembled in the first-floor main hall, where many residents warmly stepped out to interact with us. Our teacher, Mr. Paul Eugin, spoke briefly to the gathering and presented essential daily supplies funded entirely through our collective student donations. Soon after, the head warden gave us an insightful orientation about palliative healthcare and the everyday challenges the residents face. Although our restless chatter caused a brief disruption during the talk, the teachers stepped in immediately to ensure order was maintained. Before departing, the class posed for a commemorative group photograph in front of the main building. The visit was a moving, eye-opening experience that taught all of us the value of kindness and community service.

PFL 2026: When Fathers Laced Up for Loyola

On 5 September 2026, more than 90 fathers at Loyola School traded their everyday routines for football boots, coming together for a shared purpose that extended far beyond the football pitch. Thus began the Loyola Parents' Football League (PFL) 2026, a celebration of sport, fellowship, and service.

Over six weekends, six teams competed with determination and passion on Loyola's football turf. Every sprint, tackle, and save brought the excitement of the game to life, while children cheered from the sidelines and student commentators added their own energy to the action. Supported by dedicated parent volunteers, match officials, and medical personnel, the tournament became a memorable expression of the Loyola community's collective spirit.

The league concluded on 18 October with Titans FC emerging as champions, led by captain Dr. Muhammed Sanoop. Spartans FC finished as runners-up, while Daring Dads FC secured third place. Individual honours recognised outstanding performances, with Dr. Muhammed Sanoop winning the Golden Boot, Vijayan receiving the Golden Ball, and Jacob Nelson earning the Golden Glove. Daring Dads FC also won the Fair Play Team Award, while Lites United FC took home the Best Jersey Award. Yet, the tournament's greatest achievement went far beyond the final scoreline. Inspired by the Jesuit ideal of Magis, the event generated a surplus of ₹80,000 for Loyola's Loaf of Love charity initiative.

In bringing fathers together through sport, PFL 2026 demonstrated that the strongest victories are those that unite people and serve a greater cause. It showed Loyola's children that leadership is not merely spoken about; it

is lived through teamwork, fair play, generosity, and responsibility. When the final whistle blew, the trophies celebrated sporting excellence. But the friendships forged, the values demonstrated, and the lives touched through charity made PFL 2026 truly memorable.

Mr. Praveen Kumar Parambath
PTA Vice President

Champions: Titans FC celebrate their victory with Director and Principal, Fr Dr Salvin Augustine, SJ, PTA President Ms Dhanya Krishna Kumar, and PTA Vice President Mr Praveen Kumar Parambath

Runners-up: Spartans FC receive the runners-up trophy from Principal Fr Ramlat Thomas, SJ

Class X Excursion: Nature and Adventure

October 12th and 13th, 2026 – two days that the present Class X will never forget, filled with magnificent views and cherished memories. Our excursion included visits to Thekkady's scenic viewpoints, where we embraced the beauty of nature, and Wonderla, which strengthened the bonds among classmates.

The first day was breathtaking: Parunthampara and Ramakalmedu were our first destinations. Parunthampara is a beautiful hilly area filled with the sound of wind grazing the rocks. Several of us sat on the rocks, mesmerised by the view. Fog covered the distant hills; small streams cut through valleys; greenery filled our gaze. The wind blew our worries away, and joy shone over us like the sun. Unwillingly, but satisfied enough, we proceeded to Ramakalmedu.

On the way, we stopped by the Grape Farm in Theni. Several shops lined the narrow road that led to the farm, offering souvenirs of various kinds. Grapes of various sizes hung from the trellis that held them. Many of us were tempted to pluck them but resisted the urge. Instead, we treated ourselves to fresh grape juice, which was delicious.

Known as one of Asia's windiest places, Ramakalmedu offered views of the windmills and the famous Kuravan-Kurathi statue, a monument that depicts the Sangam Period and Sangam landscape of Kerala and Tamil Nadu. To reach the statue, one had to climb a slightly steep hill. However, the trekking part was absolutely worth it. When we looked back, we could see the multitude of hills, settlements, and windmills. The setting sun made the view even more beautiful. Those with cameras captured those stellar moments, preserving memories of our friends and everyone there. Just like the final rays of the sun, a brief intermission took hold for the night, paving the path for the next leg of our journey.

Dawn greeted us in the blink of an eye, inviting us to the final part of our excursion – Wonderla. People hung out in groups and got onto several rides. Not one of us felt dissatisfied. Friendships were founded; bonds were strengthened, and memories resonated throughout the colossal stretch of land. Many people who possessed the bravest of hearts got onto several "high-thrill" rides such as the Recoil, Flash Tower, etc. Laughter echoed throughout the area. The pools and countless rides etched the happiness of that day into our hearts.

With lingering smiles and memories to treasure, we returned home, bringing our unforgettable excursion to a close. Though time may carry us down different paths, this journey will always draw us back into nostalgia, for it gave us countless moments that define who we are.

CLASS IV EXPLORES KERALA ARTS AND CRAFTS VILLAGE, KOVALAM

The Class IV students and teachers visited the Kerala Arts and Crafts Village, Kovalam, on 22 October 2026. A total of 170 students and 6 teachers participated in this memorable educational trip filled with learning, entertainment, creativity, and cultural experiences. The village showcased Kerala's rich artistic heritage and traditional craftsmanship. The students explored jewellery, pottery, bamboo crafts, traditional mat-making, handwoven clothes, and other handmade products. They observed skilled artisans at work and learned how natural materials such as bamboo and clay are transformed into useful and decorative objects.

A major highlight was the pottery-making session and magic show, followed by mentalism tricks performed by Aswin Vijay, magician and mentalist. Ms. Deepa and Ms. Anjali participated in an interesting demonstration in which he appeared to read their minds and gave correct answers, amazing the students and teachers. A lively DJ performance added to the entertainment. Many students were fascinated by pottery and expressed a desire to attend pottery classes to create their own clay items. Everyone thoroughly enjoyed the delicious food served during the visit. The children expressed interest in revisiting the village with their families during a weekend. They also learned that December and January are among the most happening months, with various festivals and cultural activities. The village also hosts an annual festival featuring puppetry and indigenous art forms from countries such as Italy and France.

The children returned home happily by 6 p.m., carrying beautiful memories and new experiences. The visit helped them understand the importance of preserving traditional arts, supporting local artisans, and respecting the cultural heritage of Kerala and other countries.

Painting Day Celebration at Loyola School

By providing a platform for our children to delve deep into their imagination and visually express it through hues of their choice, Loyola School observed Painting Day on October 28.

Students immersed themselves in creativity, expressing their artistic talents through colours and imagination on Painting Day.

A Celebration of Service and Gratitude: Feast of St. Alphonsus Rodriguez, 2026

"You must strive with all possible care, to please God in such a manner as neither to do nor behold anything without first consulting Him, and in everything to seek Him alone and His glory." – St. Alphonsus Rodriguez The feast of St. Alphonsus Rodriguez, commemorated as Non-Teaching Staff Day, was celebrated in our school on 30th October 2026. The occasion was a meaningful tribute to the spirit of humble service, dedication, and commitment exemplified by St. Alphonsus Rodriguez, and an expression of gratitude to our non-teaching staff, whose tireless efforts and invaluable contributions are integral to the smooth functioning of our institution.

The special assembly began with a prayer led by the school choir, creating a solemn atmosphere. This was followed by a welcome address by Sidharth A. M. of Class IX C and the presidential address by Fr. Ramlat Thomas, SJ, Principal of Loyola School (CBSE). The senior boys presented a group song, followed by an inspiring speech by Ms. Malathy S. Musical performances by Mr. Deepu M. and Ms. Usha Kumari added charm to the celebration. A video tribute presented by the students of Class XI and an energetic group dance further enriched the programme.

Ms. Beatrice Rex, speaking for the non-teaching staff, conveyed the spirit of gratitude that marked the occasion. Principal and Director, Fr. Dr. Salvin Augustine, SJ, addressed the gathering and highlighted the importance of recognising and appreciating those who work tirelessly behind the scenes. The programme concluded with the distribution of prizes, a vote of thanks by Aeden Alwa Jose of Class IX B1, and the school anthem. The programmes were well received and made the occasion both engaging and memorable.

More than a celebration, the assembly was a heartfelt acknowledgement of the dedication and commitment of our non-teaching staff, whose service is an integral part of the Loyola family.

Illusions and Learning: Class III Visits Magic Planet

The class 3 students and teachers of Loyola School visited Magic Planet on 23 October 2026 as part of an educational excursion aimed at providing meaningful learning experiences beyond the classroom. A total of 196 students and 6 teachers participated in the trip. The group departed from school at 9:15 a.m. and reached Magic Planet at 10 a.m. The students were enthusiastic throughout the visit and eagerly looked forward to the various programmes and experiences arranged for them.

The visit offered students an opportunity to explore the fascinating world of magic, illusions, history, and human potential while enjoying a day filled with excitement and discovery. They watched a variety of captivating magic shows and thrilling illusions that left them amazed. They also watched street magic performances, which sparked their curiosity and encouraged them to observe the performers' skills closely.

One of the significant highlights of the visit was the interaction with Mr Muthukad, founder of Magic Planet. This made the experience especially memorable, as the students were able to connect with the visionary behind this unique initiative. Another deeply moving experience was watching differently-abled performers showcase their talents on stage. The students responded with great appreciation and enthusiastic applause, recognising the performers' abilities and achievements. This experience conveyed an important message about inclusion, equal opportunities, and respect for every individual's talent. The students also explored exhibits and listened to presentations about the history of magic, including early magicians and important historical figures associated with the art. These experiences helped them understand how magic has evolved over time and appreciate its cultural and historical significance. The students and teachers returned to school at 5:20 p.m., carrying with them wonderful memories from the

day's excursion. We extend our sincere gratitude to the management and staff of Magic Planet for providing such a memorable and educational experience.

Overall, the excursion to Magic Planet was an enriching blend of education, entertainment and inspiration. Throughout the visit, the students displayed enthusiasm and keen interest in the activities, making the experience enjoyable and meaningful for both students and teachers.

Ms. Dhanya Rajan

A Day of Adventure and Delight: Class I Picnic to Funtura

Class I students of Loyola School embarked on an exciting and memorable picnic to Funtura on 23 October 2026. The much-anticipated outing brought together 189 students, accompanied by six teachers and one support staff member, who travelled in three buses. The group departed from the school at 10 a.m., amidst an atmosphere of enthusiasm and cheerful anticipation. Funtura offered the children a refreshing escape from their usual classroom routine, providing a vibrant setting for recreation, exploration, and shared experiences. The students enthusiastically participated in the various rides and attractions, relishing every moment of adventure. Their excitement and exuberance transformed the outing into a lively celebration of childhood, filled with laughter, camaraderie, and delightful discoveries.

A delicious meal added to the day's enjoyment, allowing the children to relax and share happy moments with their classmates. Beyond the thrill of the rides and the pleasure of good food, the picnic served as a valuable opportunity for the students to strengthen friendships, cultivate social interaction, and develop a greater sense of togetherness. Experiencing new activities in a different environment also encouraged confidence, cooperation, and independence among the young learners. The students returned to school safely at 2:30 p.m. The smooth coordination of the trip and the attentive supervision of the accompanying staff contributed to its successful execution.

The picnic to Funtura was a resounding success and a delightful celebration of togetherness that enriched the students' school life and left them with memories they will fondly treasure for years to come.

A Day of Art and Fun - Class V Picnic to Kerala Arts and Crafts Village

A picnic to Kerala Arts and Crafts Village, Kovalam, was organised for the students of class V on 23 October 2026. A total of 154 students and six teachers participated in the trip. Three school buses were arranged for transportation. We started from the school at 9:30 a.m. and reached the destination at around 10 a.m. Upon arrival, the students watched a video presentation introducing the exhibits and activities at the village. Following this, the students were taken on a guided visit to explore the various exhibits and learn about the rich artistic and cultural heritage showcased there. A live flower-making session was also conducted, allowing the students to observe the creative process and appreciate the art of flower making.

At around 1 p.m., a buffet lunch was served to all the participants. After lunch, a short cultural programme was organised, which gave our students an opportunity to showcase their talents. The cultural programme was followed by an entertaining magic show and a lively DJ party, which the students thoroughly enjoyed. At around 4:30 p.m., tea and snacks were served. The students and teachers also took photographs to capture the memorable moments of the day. We departed from the venue at approximately 5 p.m. and reached the school safely at 6 p.m.

Overall, the picnic was both enjoyable and enriching for the students. It created an avenue for them to explore art and culture, learn about traditional crafts, develop social bonds, and participate in recreational activities outside the classroom. The trip concluded successfully, leaving everyone with happy memories

SUB-JUNIOR STATE CHAMPIONSHIP 2026–2027

Heartiest congratulations to Ebba Adila S (Class XII A2) of Loyola School, Sreekaryam, for her outstanding achievement at the 68th School Olympics State Championship!

Ebba showcased her exceptional talent and determination by clinching FOUR GOLD MEDALS in:

- 50m Butterfly
- 100m Butterfly
- 50m Backstroke
- 4×100m Medley Relay

Adding to her remarkable accomplishments, she was also crowned the Senior Girls Individual Champion!

Her phenomenal performance reflects her dedication, perseverance, and sporting excellence.

We are immensely proud of her achievements and wish her continued success in all her future endeavours.

Keep shining, Ebba! You have made Loyola School proud!

Ms. Bindhulekha Cijo, Art Teacher, receiving the Best School Award on behalf of Loyola School in the Deepika Colour India National Painting Competition
